VOLUME NUMBER 84

CAMERON, MILAM COUNTY, TEXAS, THURSDAY, JANUARY 6, 1944.

EIGHT PAGES TODAY

NUMBER 39

The tumult and the shouting which usher the Old Year derisively out and drag the New Year hilariously in is, after all, only a spent hour of self abandon.

For when the noise has died and the little night is passed, the fact remains and the fact is a milestone set firmly in the fibre of our living journey, and it would come if we slept, or if we kept vigil or indeed, if we passed into eternity in advance of the event.

It is fatality we celebrate; it is human limitation we speed into the night with the Old Year, knowing that all things are beyond our control, and thus we play the brave, daring Time to do what he can and will, since the dawn is not our numbering.

For some the night of capering; for others the morning of reflection. "Resist the beginnings," says Orvid, but he speaks of temptations.

"Those that with haste," remarks Cassius, "will make a mighty fire, begin it with weak straws."

That is wisdom, and the weak straws of our flame are the gleanings of New Year's Day, left from the vanished harvest of the dead year.

Spenser was not the first, nor the last, to discover that "each goodly thing is hardest to begin," but there is quite a common discovery that even the weakest of good intentions leaves a reproach among the ruins, and that is something.

Life is a succession of moods, thru which we pass again and again; and according to our character, some grow strong and some more faintly marked as they revolve.

The coming of the New Year is of all these moods the most arresting, because it conspires with the seasons to symbolize life itself. He is a bold man who dares shut his ears to the toiling of the summons that day echoes; he is a foolish man, too, for if the bells monotone their warning they also peel their promise.

Who knows of tomorrow? Of an other day, a year hence, and what shall be written? Whither the trail: what the rewards? Something stirs within as the day glides into the year; and that profound element of high adventure, which shines through the eyes of a boy whom all the earth awaits a conqueror, flickers, perchance flames, and lights "a candle of understanding in thine heart, which shall not be put out."

Good intentions are not to be despised; they are their own benediction. Not all are wise enough to collect weak straws, but the fault is born of zeal. So long as we ponder the matter and realize, if once a year, that it is even better and more useful to live for good ideals than to die for them, each New Year holds toward us the kindling torch. For these the peel of promise, and the dawn after the night.

## Mrs. Fahrendorf Is Thankful for Gifts Sent to Hospitals

Mrs. F. C. Fahrendorf who directed the collection of Christmas Gifts for the McClosky and Camp Hood hospitals for wounded men, has expressed deep appreciation for the response and co-operation of the people here and over the county.

Mrs. Fahrendorf on behalf of the committee expresses thanks to the churches, organizations and individuals for their part in making the gift drive a success. Gifts far exceed the number asked.

While Mrs. Fahrendorf is expressing thanks to the people, it is due her to say that she has done a fine job in her Red Cross work. No one in 1943 served better or accomplished more than did Mrs. Fahrendorf and the Herald acclaims her the Woman of the Year in Milam county.

Walter Ramsel of the Tax Assessor's office spent the holidays in Ft. Worth visiting his two brothers.

## JIM MCGOLDRICK FOR CITY MARSHAL HERE

Jim McGoldrick, member of the police force for the past 18 months, widely known citizen and veteran of World War No. 1, Thursday requested publication of his announcement for City Marshal in the City of Cameron, subject to the City Democratic Primary to be held on Tuesday, February 1, 1944.

Mr. McGoldrick expressed gratitude to his many friends throughout the city for their encouragement and pledges of support and was especially pleased to know of the extent to which his announcement had been favorably received. In making his announcement for publication in The Herald he requested a special expression of thanks for these pledges of support.

Mr. McGoldrick has been a member of the City Police Force for the past 18 months and during this period has not only served well but added valuable experiences to his already unusual qualifications. Mr. McGoldrick at one time served 18 months doing service as a peace officer in the Patrol along Texas border of Mexico.

Mr. McGoldrick's service as a member of the local police force, has brought him many friends. His aptitude for the work together with his friendly characteristics has enabled him to accomplish much in the way of giving and obtaining co-operation. When necessary he has been firm and possessing great courage his friends point out that he combines in his personality all the laudable traits a peace officer should have.

In World War No. 1, Mr. McGoldrick saw more than two years of foreign service, all in the combat area. He was three times wounded in action and his combat record is outstanding, having seen much more than the average service in some of the fiercest battles waged by Americans in France. He is a former Post Commander of Edwin Hardy Post No. 9, the American Legion, a charter member of the post and also a charter member of the Ben Milam Post of Veterans of Foreign Wars. He has been active in the service of both organizations. Mr. McGoldrick is a member of the Cameron Lions Club among other civic organizations and also a number of fraternal organizations.

Appointed 18 months ago by the City Council a member of the Police Force, he served under the late Gene Smith, veteran marshal and his many friends point with pride to the record

## COUNTY BOND QUOTA ONLY \$1,320,000

Milam County's bond quota for the Fourth Treasury Loan is only \$1,320,000.

Chas. M. Hicks, War Loan Director for the county, has just received a letter from Nathan Adams of Dallas, director for the Texas Loan Drive, outlining the part Milam county will play in the coming loan drive which gets under way January 18.

Of special emphasis is the allocation of \$274,000 in the quota to be sold in E bonds. These bonds are designed for individual purchasers. As can be seen this quota is well within the limitations of the people. The remainder of the quota is allocated to bonds which may attract larger investors.

In the September Third Loan individuals bought \$289,988 in Series E and F bonds while the county as a whole was ninth in Texas in volume of bonds sold.

Mr. Hicks is now laying plans for the coming loan and plans a meeting of workers here soon.

## LUNSFORD CANDIDATE FOR CITY MARSHAL HERE

Dan Lunsford, City Marshal, Wednesday requested publication of the announcement of his candidacy for City Marshal, subject to the City Democratic Primary to be held on Tuesday, February 1, 1944.

Mr. Lunsford was appointed City Marshal by the City Council 11 months ago to serve for the unexpired term of the late Gene Smith who died in December 1942.

In making his formal announcement for a first elective term, Mr. Lunsford was deeply impressed by the great number of citizens who not only have pledged their support but have urged him to become a candidate because they appreciate the character of service he has rendered in the office. "Please thank them for me," said Mr. Lunsford, in requesting publication of his announcement.

Friends in the city were generous in their comment upon Mr. Lunsford's service during the past 11 months. They point to the great volume of work he has done and to the record he has made.

Through years of experience Mr. Lunsford has equipped himself to serve well in this office. He is a veteran of the Cameron Police force. He served for a number of years under the late Gene Smith, as Deputy Marshal, and was picked by the city government to take over the responsible duties. Mr. Lunsford is a candidate for the first time in his long years of service.

Outstanding among the things he has done since named by the Council to head the police force has been his close attention to duty, often going beyond the required time expected of a day officer. He has shown a special interest in the safety of school children and can be seen most any day directing traffic and urging safety measures. He has also been especially interested in directing traffic in the downtown area. Farmers coming here to trade have been given every courtesy and co-operation during crowded traffic periods in the mercantile area.

When necessary Mr. Lunsford has been firm as the great number of cases filed will show on the corporation court docket. In this respect he has brought many hundreds of dollars into the city treasury.

Mr. Lunsford by experience and temperament is eminently qualified for the office he seeks. He feels and his friends feel that few men have had better training and wider experience in police work. During the 11 months he has served as City Marshal relations with the Council have been pleasant in every way. He has received co-operation from the people and has spent long hours each day, often at night because he feels he owes to the people a full discharge of his duties.

Mr. Lunsford in asking the people in Cameron for election for the first time, hopes to see each one, but takes this method of asking for your vote and support, pledging the same full discharge of duty that has characterized his service in the past.

## OVER TEN THOUSAND GIFTS TO HOSPITAL

In November the Central Texas Red Cross Camp and Hospital Council was asked by the Red Cross field directors from North Camp Hood, South Camp Hood, McCloskey General Hospital, its Waco Annex, Bryan Army Air Field, Blackland Air Field and Waco Army Air Field for 6,000 gifts, many trees and wrappings, which might afford pleasure and cheer to soldiers hospitalized and far from homes at the Yule season.

The people of the 18 counties according to Mrs. F. C. Fahrendorf, which compose the Central Texas Camp and Hospital Council, of which Mrs. C. S. Gillmore of Temple is chairman, have responded generously to the request of the Red Cross field directors. The council has been flooded with gifts—it was only asked for 6,000 gifts and more than 10,000 gifts poured in besides trees and decorations. There is a tree for all the wards at McCloskey hospital. As there are four portions to a ward, this means that there are four trees on every ward. Gifts, trees and decorations for the other camps and hospitals in the Central Texas area were provided.

Counties which have played the role of a great benevolent Santa Claus are: Ellis, Hill, Coryell, Bell, Lampasas, Burnet, Williamson, Lee, Novarro, McLennan, Limestone, Freestone, Falls, Milam, Robertson, Burleson, Brazos and Bosque.

Through Mrs. A. E. Collier, chairman of the Bell County Camp and Hospital Council, the Temple Garden Club and Domestic Science Club have decorated the two Red Cross auditoriums and lobbies with garlands, berries, and a large tree in the No. 2 auditorium of McCloskey General Hospital.

Christmas program of carolers, chorus and orchestra, was presented under the council entertainment committee by the schools of Temple. Mrs. Hugh Z. Maray is the entertainment committee chairman of the Council. Mrs. F. C. Fahrendorf of Cameron is the Council chairman for Milam County.

## Sonja Henie Bringing New Smash Musical to Cameron Screen Thurs.

Sonja Henie returns to the screen of the Cameron Theatre on Thursday and Friday in "Wintertime," which has been hailed as her most successful screen musical. And when you consider that the incomparable Sonja has appeared in such outstanding hits as "Ice Land," "Sun Valley Serenade" and "Happy Landings," that is saying a great deal.

20th Century-Fox "shot the works" on "Wintertime"—every possible effort was taken to make the musical the best of the season, and according to advance reports the studio definitely succeeded. Jack Oakie, Cesar Romero and Carole Landis are featured in the cast while Woody Herman and his "band that plays the blues" provide the music.

The story is set in Canada, where an enterprising young hotel owner, Cornel Wilde, can't seem to make ends meet. He tries through the aid of his overly-optimistic partner, Jack Oakie, to bring a wealthy Norwegian and his attractive niece (guess who) to enhance the reputation of his resort.

sort.

This sets the stage for the sumptuous production number which highlights "Wintertime." Sonja, of course, is without a doubt the finest entertainer who ever laced up a pair of skates—and the numbers she and her talented troupe perform to the incomparable rhythms of Woody Herman are superlative. Imgaainative, colorful and perfectly executed, these routines rank with the best that Sonja has ever done and prove the cappers in a film full of entertainment delights.

Carole Landis, who recently returned from an adventurous trip abroad to entertain our fighting men, shows the charm and appeal that had the troops cheering everywhere she went. Oakie has a million laughs which he delivers with machine-gun rapidity, while Romero, the handsome Manhattan Latin, tries to make up his mind whether he likes Sonja better than he does Carole.

Cpl. and Mrs. H. C. Leonard left today to return to his base in Biggsfield, El Paso, Texas, after an enjoyable visit here with relatives and friends.

## ZHITOMIR FALLS TO RED ARMY SATURDAY

The great rail center of Zhitomir west of Kiev has fallen to the Red Army. The capture completes reconquest of all territory taken by the Germans in their winter offensive.

The Red Army was pounding westward through a 200 mile breach in the German lines in the northern Ukraine.

For the first time in the war on the eastern front the German forces seemed to be demoralized, although in London experts still insisted that the retreat was orderly. The forces at Zhitomir are under command of Gen. Fritz Mannstein. The German radio was making no effort to minimize the situation, stating that the Russians had marshaled great numerical superiority.

Disaster was certain in view of the manner of the retreat of some 300 thousand German soldiers. They are in full flight and have left behind them all kinds of equipment. Tanks by the hundreds and all other field equipment were being left behind as the Germans sought to escape the Kneiper bend trap.

The Red army was within 35 miles of the old Polish border.

Adolph Hitler in Berlin, stripped of his boasts and facing for the first time the reality of invasion from the east and disaster already a certainty in the west said: "In this war there will be no victors and losers, but merely survivors and annihilated. Germany's collapse would mean the end of the continent with its 2500 years of cultural tradition and its replacement by barbarism which only those can imagine who know the Bolshevik east."

In 1941 and in 1942 and in 1943 Hitler said Germany would win the war. He knows now that Germany will lose the war and his statement indicates as much.

## Capt. Chas. Beacham Writes of Christmas In Italy; Leads Men

Here is a letter just received from Capt. Chas. Beacham who leads a company of infantry in Italy. The letter came to his father C. M. Beacham of Cameron and tells a story of sacrifice, and also speaks of Christmas:

"You good people back home sure made a real Christmas of it for me. got a boy scout special and a Bowie back to the trains area—a whole sack full of packages were there for me.

"I sure can use the knife. I've got a bay scout special and a Bowie knife—but knives are like watches—they sure come in handy. I own four watches now; one I bought in North Africa, three I've bought in Italy. While enjoying my first bed with sheets, and first hot tub bath in eight months, I just simply loaded on corner of the room with pipes, cigars, tobacco, candy, cookies, etc. It's A Real Christmas.

"My Company was originally from Robstown, Texas (Texas National Guard.) We call ourselves the "Robstown Cotton Pickers." We've killed more of the Bastards than they have of us. Each of us know that he personally may not get back, but we are on the winning team. Maybe we can give you Victory for a Christmas present some day."

G. B. Hughes returned home Friday from San Diego, Calif., where he went to see his son G. B. Hughes, Jr.

Mrs. Grady Maddox of Burlington was a business visitor in Cameron.

Money spent for War Bonds goes to the front. Sometimes it provides spectacular equipment like planes, oft times it buys a runty donkey like this American soldier is taking ashore in Italy. The quicker your dollars go into action, the sooner it will be over. Buy More War Bonds. U. S. Treasury Department

## EMERGENCY CROP LOANS AVAILABLE TO FARMERS

Emergency Crop Loans, known available to farmers for the production of vitally important food crops generally as "the seed loans," are now and normal crops for 1944, according to announcement of W. E. Farwell, Manager of the Dallas Emergency Crop Loan Office of the Farm Credit Administration.

Applications for the loans in this county are being taken at the Chamber of Commerce, Cameron, under the direction of Field Supervisor Eric E. Brown.

Funds obtained under these loans may be used to cover the general expenses of crop production including the cost of preparing the land, purchase of seed, feed, fuel oil, fertilizer and supplies. A first mortgage on the crops to be financed is the security required.

These loans have been made in this

county for a number of years and have proven of great benefit to farmers of limited collateral whose cash requirements are small. The maximum loan to an individual is \$400. Applicants who can secure loans from banks or other sources are not eligible for "the seed loans."

As in the past, borrowers will be required to plant a large garden for home use and a balanced crop program will be encouraged.

"Silver City Raiders," the Columbia western which is scheduled for the Milam Theatre on Friday and Saturday, is said to be a breath-taking romance of the open plains.

It stars the hard-fisted, quickshooting Russell Hayden and features Dub Taylor and the tuneful Bob Wills and his Texas Playboys in a story of cattlemen who by courage and tenacity cross up a group of double-crossing land-grabbers. Beautiful Alma Carroll plays the girl who aids the ranchers in their fight against the crooks.

This picture, reverberating with gun battle as hard-riding sons of the saddle fight to preserve land which is rightfully theirs, was directed by William Berke. It was produced by Leon Barsha.

## CRISWELL

(continued from page one)  
the frontiers and built civilization from the wilderness out of which General Sam Houston carved a nation to change the face of the continent.

Mr. Criswell was born in Fayette County, Texas, on October 18, 1858. He was the son of LeRoy V. Criswell and Elizabeth McMickens Criswell, pioneers who moved with early settlers to that region of Texas in 1829 before the revolution and San Jacinto. His parents were natives of Kentucky. A brother of LeRoy V. Criswell and

uncle of the late D. R. Criswell fought under Sam Houston at the Battle of San Jacinto. His body was disinterred some years ago and buried again in the state cemetery at Austin along with other Heroes of Texas. LeRoy V. Criswell, a soldier under Sam Houston, was discharged from the Revolutionary Army in 1835, went back to Fayette county to rear a family of 14 children, 11 sons and 3 daughters.

In the early days of Texas' cattle empire, all save one of the sons, followed the trails and the cattle ranges and little is known about their subsequent life. One son, Henry Criswell, brother of D. R. Criswell, was a pioneer city marshal at Yoakum where he died many years ago.

The sons of the Criswell family were: D. R. Criswell, the pioneer who died on yeasterday at Buckholts; John Criswell, Waymond Criswell, William Criswell, Henry Criswell, Harve Criswell, Thomas Criswell,

Larkin Criswell, Lee Criswell, Milam Criswell and James Criswell. Three daughters were Mary Criswell, Ruth Criswell and Joe Ann Criswell.

Before the Civil War cattle in Texas were on the ranges by the millions. At 17 Mr. Criswell was a trail boss, making the first of three trips up with herds of Texas cattle gathered from the mesquite ranges of Southwest Texas. They were large herds. The cattle were rounded up and driven to Padre Island not far from old Indianola and off the Texas Coast long before Corpus Christi was established. When ten thousand head were put in herd on the island they were driven out and headed up the trail. Old Indianola was destroyed by storm. The town served as the main port from which freight and supplies were brought inland. Mr. Criswell drove his first herd to Pikes Peak, Colorado. The late Charles Goodnight was the first Texas cattle pioneer to open up the beef and range markets in Colorado.

Mr. Criswell who told many interesting stories about the trail, said when he returned to Austin after his first trip up he weighed 100 pounds and that with a bottle of chili tonic in his pocket. On the trail that year the drivers had all suffered from chills and fever. The herd that year off Padre were sold at Hugo, Colorado, delivered to Cheatham, Riding & Ragsdale whose properties were in the Lake Station Area near Hugo. In all the years of his cattle trail experience Mr. Criswell was with the Driskill range properties. The Driskill fortunes were built up from Texas soil and one of the landmarks is the Driskill Hotel in Austin.

Mr. Criswell was the trail boss on the three trips up. Not long ago he gave to his son, Cecil Criswell an old bill of sale for the cattle he delivered to Colorado, and also named the following pioneers who were in his outfit up the trails: West Lampkins, Charles Moore, Emil Oberwetter, Tom Hawkes, L. A. Brown, Bill Wells, Jess Driskill, Sam Waits, Nap Adkins, John Gill, F. M. Estes, W. A. Bates, John Savage, Evans, Frank Love, Al Andrews and Dan Cookley.

Mr. Criswell was first married in 1878 to Miss Isabell Secrest in Fayette county. He moved to Milam county 5 years later. Mrs. J. B. Taylor a daughter, of Wichita Falls,

now deceased was born in Fayette county. Mrs. Criswell died in 1895 and is buried at North Elm. He was married again in 1897 to Miss Stella Pollock, the widow now surviving. She was a native of Mississippi and lived at Buckholts at the time of the marriage. Mr. and Mrs. Criswell had lived for 55 years in their present home on the hilltop east of the city of Buckholts.

Mr. Criswell, a man of splendid education, taught school in Milam county for a number of years, among his first schools at North Elm to which he rode 6 miles horseback each day. There were no fences then in this area, and no roads. He was admitted to the Bar of Texas in 1902 and practiced law at Buckholts.

In religious faith Mr. Criswell was a Baptist, first uniting with a country church that stood for years in the Corinth neighborhood. Dr. Lee R. Scarbrough, world famous Baptist

leader and President of the Southwestern Baptist Theological Seminary in Fort Worth, was pastor at the little church. Dr. Scarbrough's first pastorate was Cameron First Baptist Church.

Surviving besides the widow, Mrs. Stella Pollock Criswell, are the following children: Mrs. C. B. Lassiter, El Paso; Mrs. F. M. Craven, Lubbock; Mrs. George W. Goree, Lubbock; Mrs. W. L. English, Moran; Delmar Criswell, United States army; Cecil Criswell of Buckholts and T. F. Criswell of Calvert.

Mrs. J. B. Taylor, born in Fayette county, died some years ago and is buried at Corinth. Zoris Criswell, a son, twin brother of Floris Criswell of Calvert, died several years ago from injuries sustained in a car wreck near Buckholts.

The family dead are buried in two cemeteries, at Corinth and North

Elm. The body of Mr. Criswell will be buried in Corinth Cemetery.

Mrs. G. B. Hughes left Tuesday night for Oklahoma City to be at the bedside of her mother, Mrs. R. A. Pittman who is seriously ill.

George Blansett of Yarrellton and Mr. and Mrs. Bruce Jennings of Davilla were visitors in Cameron Monday.

Mrs. Dollie Culver and son Charlie of Houston visited her mother, Mrs. M. W. Price and family over the week end.

Sgt. Oliver Newton of Nashville, Tenn., left Wednesday for his station going by the way of Waco where he will spend a few days.

Pfc. Wilson Killen of San Antonio, spent a few days here with his mother last week.

## FREE TICKET to TOKYO

Vitally important is the job American Longshoremen are doing. Big, husky bruisers, they strain under the weight of giant crates, tug at the load of monster cranes, stow tons of fighting cargo into the yawning maws of huge ships so it won't shift in the roll of heavy seas. No one knows, better than they, the need for speed in handling the freight that's got a free ticket to far-off Tokyo and Berlin.

## BIG BREAK THROUGH SCORED BY RED ARMY

A break through by the Red army west of Kiev Friday heralded a victory over the Germans comparable to the disaster at Stalingrad.

An estimated 300,000 German troops in the northern Ukraine are reeling back from this new and mighty thrust by the Reds. The break through is on a front 180 miles wide. The disaster threatened may have a profound influence on the ending of the war, said commentators Friday.

Joseph Stalin hailed the great victory as one of the most decisive of the war. New placements of German troops due to the imminence of the invasion may have weakened the Germans in the west.

After a week of violent fighting the Reds have routed eight German tank divisions and 14 infantry divisions. The advance has reached to a depth of 60 miles and liberated some 1300 cities, towns and villages.

The key defense city of Zhitomir taken by the Germans on November 20 in their unsuccessful counter offensive is now so thoroughly besieged that its fall is expected momentarily.

The Germans are in full retreat, their flight simulating the disaster of the Marne in World War No. 1, when Hindenburg failed to dislodge the American Third Corps.

The Polish border as it existed before the war was less than 50 miles from the Reds now pushing on rapidly.

The Germans have been taking terrible blows in the last two days of 1943. Berlin, said 75 per cent destroyed, was reported in flames following the 2400 ton raid on Thursday.

In London a news agency account said it was admitted freely that the step up in air war is the initial assault to soften up the invasion coast. General Eisenhower has said that Hitler will be liquidated in 1944.

## Lt. Tom H. Wells is Married to Ensign Carol McConnell

Lt. Wells and Capt Wells are the grand sons of the late Mr. and Mrs. T. S. Henderson, Sr., and are the sons of Mr. and Mrs. Peter Boyd Wells of Austin.

Mr. and Mrs. Jim Young attended the funeral of Reden Alford Thursday in Rockdale. Mrs. Alford is a nephew of Mr. Young.

## Johnny Slavik Gets New Rank In Naval School In Colorado

Johnny Slavik, First Class Radio man, United States Navy, has just scored a signal success in his work at the University of Colorado.

His new rating is equivalent to a Technical Sergeant in the Army. In completing the course to which he was assigned by elimination process and show of merit in the training camp at San Diego, Slavik now is a First Class Radio Man and has earned additional educational opportunities.

Slavik is the son of Mr. and Mrs. Jos. Slavik, Sr., of Marak and one of 49 young men from the Marak community in the armed services. In high school days he was a star football player under Carroll Wood. He stood fifth in rank of the class graduating. In a class of 400 there were only 83 young men without naval experience. Johnny was the only one out of the 83 young men to make the grades.

In the graduation process only 1 out of 7 made the rank. Most of the students were men of previous naval experience.

## 2400 TONS OF BOMBS DUMPED ON BERLIN

Berlin was attacked in force again last night by hundreds of British bombers.

A total of 2400 tons of bombs were dumped on the capital, according to a London broadcast. Late Wednesday the Berlin radio announced that the capital was being heavily attacked.

The bomb load was only a fraction short of half the total of 30 thousand tons of bombs which were estimated to be sufficient to destroy the city.

In Berlin the Germans were saying that the invasion of Europe will come in 14 days.

In the raid on Berlin the British said they had lost 20 big bombers.

What do you like about coffee...

GRIND?

**PERK KUT**—Intended only for percolators, this is the coarsest of our grinds. Admiration's special process grinds the coffee to uniform-size particles, free from coffee dust. Perk Kut produces a perfect brew—in percolators.

**DRIPKUT**—This grind is ideal for all the various types of drip pots. It has the consistency of a fine meal, and like all Admiration grinds is free from coffee dust. Hot water has but to saturate it to extract all the flavor.

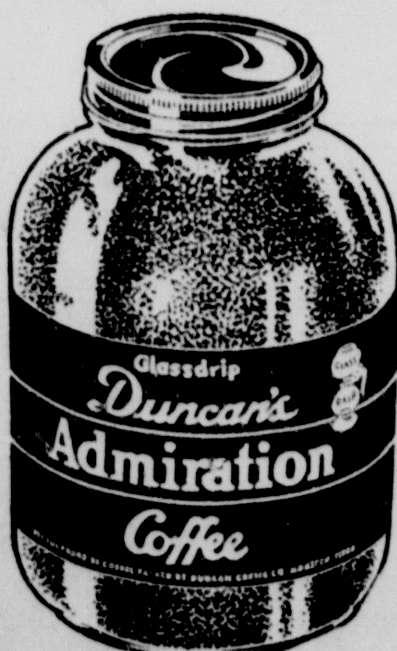

**GLASSDRIP**—Vacuum coffee makers brew on an entirely different principle from percolators or drip pots. A vacuum literally "pulls" the flavor from the coffee. Such coffee-makers require a very fine, almost flour-like grind—and that's exactly what Glassdrip is.

Grind is very important in coffee-making. It has a direct bearing on the strength of your brew and the quality of its flavor. Too fine a grind for your pot produces a sediment in the brew. This often makes coffee bitter. Too coarse a grind brews improperly and results in weak, flavorless coffee. The *exact* grind recommended for your coffee-maker is what you should use. It will be one of three standard grinds: for the percolator...for the drip pot...or for the vacuum bottle. Admiration Coffee is scientifically ground for all three. When you buy and brew the right grind, the final strength and flavor of Admiration will be exactly as its roasters intended it. And you, like countless thousands, will love it. Try a pound today.

Do You Use  
Open Flame,  
Unvented Heaters?

VENTILATION

is half the battle against wall sweating

Heat whole house for healthful living conditions. If unvented type heaters are used it is important to have some ventilation, and a free movement of warm air should be kept circulating in the house through connecting doors of all rooms.

The Window, in homes where open flame, unvented room heaters are used, has a prominent part in maintaining healthful winter conditions. For it is the slight opening of the window which permits a flow of fresh, oxygen-laden air into the room. This is important if wall sweating is to be reduced.

All air contains a certain amount of moisture. Condensation or "sweating" that collects on cold surfaces inside the room is caused by too much moisture in the room. Water vapor is one of the products produced by burning fuel. This water vapor combines with the moisture that is already present in the air and when the room air reaches a super-saturated condition "sweating" or condensation collects on any cold surface, such as walls, windows, doors, and furniture.

The open flame, unvented heater is practical for quick heat and is used with great satisfaction when sufficient ventilation is provided by slightly opening a window.
